PROFILE

A Software Engineering student at Pak-Austria Fachhochschule Institute of Applied Sciences and Technology with a creative mindset and strong technical aptitude. Skilled in website development, content creation, and programming, I have the ability to take on challenging projects and deliver effective solutions.
With a growing specialization in **WordPress and Next.js full-stack development**, I focus on building responsive, high-performance, and user-centric web applications. Passionate about continuous learning and innovation, I am eager to pursue a career in web development and contribute to impactful digital solutions.
